About Clayton

Clayton Early Learning is Colorado's leading influencer for excellence in every aspect of early childhood education and development. Our work with and for children from birth to five-years-old is making a difference for thousands of families in Colorado, preparing them for success in school and throughout their lives. With our comprehensive approach to early learning, the Clayton formula integrates program evaluation and research, educator coaching and professional development, health and wellness and public policy advocacy to close the achievement gap for children of limited opportunity.

Our school, home-based programming and partnerships directly impact more than 900 children across the state of Colorado.

We train more than 23,000 early childhood professionals, log over 2,500 coaching hours and conduct 3,700+ direct child assessments each year.

We impact the lives of 20,000 children annually through our Four Pillars of Research, Training, Practice and Advocacy.
